

JUN 15 1949

MEMO FOR CHIEF OF STAFF, DEPARTMENT OF ARMY

SUBJECT: Reserve Credits

25X1

1. [redacted] is a civilian employee of the Central Intelligence Agency and is attending the current course at the National War College in a civilian capacity, having been nominated to fill the CIA quota for that purpose.

2. a. Upon inquiry to the Military District of Washington he has been informed by Lt. Col. Yates, a staff officer of the District, that his successful completion of the National War College course could not be entered on his military records due to the fact that he was not attending in a military capacity.

b. He was also informed that, for the same reason, no credit for retention of active reserve status or reserve retirement points could be given.

25X1 3. Inasmuch as the course requirements for [redacted] are exactly the same as for those students who attend in an active military status it appears reasonable to assume that successful completion thereof should entitle him to the same benefits as accrue to fellow reserve officers who successfully complete the course in a military status.

25X1

4. In other similar cases will arise in connection with future civilian nominees from this Agency to attend the National War College it is requested that a statement of Army policy be provided for guidance on the points mentioned in paragraph 2 above.
